McCumber Angus Ranch

The Cow Herd Known for Outstanding Maternal Traits • Annual Bull Sale: March 29, 2010 at the Ranch

Notes from McCumber

We are in the process of preparing for our Fall Female Sale. The sale will be held October 29th 2009 here at the ranch. As many of you know we hold this female sale every three years and it is amazing that it has been that long since the last one.

We are offering the strongest set of females from top to bottom that we have ever sold. They include all donors, and females born from 2000 to 2003 that have withstood our strict culling practice. Also included is an excellent set of 40 bred heifers' right from the heart of the replacement pen, and 11 topend heifer calves that represent our sire groups as well as the top donor females on the ranch. The group of mature cows will include a large group of McCumber Foundation 701 daughters that represent our program well. They are fertile, sound, moderate framed females with excellent udder quality, and excel at the things Angus cows are known for.

In addition the mature cows are highlighted by our oldest daughters of Leachman Right Time. The Angus Industry is well acquainted with the attributes Right Time brings to the table. The entire sale will be led off by one of the best females to ever reside on this ranch. Miss Wix 2022 of McCumber is an outstanding Right Time donor cow for us and out of Miss Wix 7111 of McCumber who is the best daughter of Miss Wix 365 that was retained here at McCumber. Full sisters to Miss Wix 2022 of McCumber have been the high selling females in our last two female sales. They include Miss Wix 2021 of McCumber that sold to Fortune's Rafter U Cross Ranch in SD in 2003, and Miss Wix 6151 of McCumber who sold to Terry Little Angus as a weaned heifer calf, and went on to raise their top indexing calf her first year out. Her sons have been in demand as well with 8 sons selling for an average of nearly \$6000 to commercial and registered breeders alike. Her daughters have done equally as well with Miss Wix 409 of McCumber producing our top selling bull in our 2008 bull sale, and Miss Wix 7031 of McCumber sired by Sinclair Extra 4X13 raising an excellent herd bull prospect by OCC Tremendous 619T. Her daughter by LT

Timberwolf 5014 will sell as a bred heifer in this sale, as a highlight of that division and a maternal sister by 4X13 and out of Miss Wix 7111 is a potential donor prospect headlining the heifer calves.

Another female that needs to be mentioned is Miss Wix 2027 of McCumber. We consider her a model Angus female. Miss Wix 2027 is moderate framed, easy fleshing, extremely fertile, and we consider her one of the best footed females on the ranch. Her production has been outstanding, and she is a 6th consecutive generation pathfinder which is a feat many cows can not claim. She has produced only 2 sons that have sold for an average of \$8000. However a group of flush brothers by 4X13 will highlight our 2010 bull sale. Her daughters have been outstanding producers as well with one producing our Lot 1 bull in this past spring's bull sale selling for \$9000 to Joe Wight in ID. In the heifer calf division we will be offering an outstanding 4X13 daughter out of 2027.

Other sale highlights include the Dam of McCumber 004 Traveler 6120, and her bred heifer by Leachman Right Time bred to OCC Tremendous 619T. The dam of McCumber 004 Traveler 513, who was the top selling bull in our 2006 bull sale, will be a cow not to miss. She is sired by Right Time, and is a top producing member of the Miss Wix cow family. There are also outstanding females sired by Pine Creek Right Time 1147, BT Right Time 24J, McCumber 6122 Equator 8113, and BT New Trend 172K.

On another note we are extremely excited about this year's calf crop. The largest sire group is sired by Sinclair Extra 4X13. In fact this is the largest sire group of calves ever born in a single year here at McCumber. Along with this he has sired the largest sire group of calves ever in the history of Sinclair Cattle Company as well. We continue to be impressed by his consistency and ability to sire cattle with length, natural thickness, outstanding structure, and overall completeness. His second set of daughters are in production and are doing an excellent job with calves sired mainly by OCC Tremendous 619T, Sitz Rainmaker 6536, and OCC Missing Link 830M. These matings have created cattle with outstanding vigor, early growth, natural thickness and muscle, depth of body, and true Angus character. We also have the first daughters of Sitz JLS Emulation EXT 536P in production this year as well. They are beautiful uddered, powerful

females with abundant rib, and thickness. They seem to be doing very well with their calves too.

Some new sire groups to introduce you to include: Sitz Rainmaker 6536 who was purchased along with the Spickler Ranch as the 3rd High Selling bull of the Sitz 2007 fall sale. We are very pleased with this sire group and will have an even larger group born this spring. OCC Tremendous 619T was purchased as the High Selling bull through the 2008 Ohlde Cattle Company sale. His first calf crop is proving him to be an easy calving bull that sires added thickness, muscle, and depth in an overall appealing package. He seems to be working extremely well on the 4X13 daughters. He was used heavily this spring on heifers as well as cows. OCC Missing Link 830M is an OCC Headliner son out of an OCC Glory daughter that we chose to AI to. He sired an excellent group of calves which are mainly out of 4X13 daughters.

We used him again this spring. Another sire group that is catching our eye is sired by McCumber 4X13 Extra 718. He was the High Selling bull in our 2008 bull sale and is a grandson of Miss Wix 2022 who will headline this fall's female sale.

We would like to extend an invitation for you to join us on October 29th 2009 for our Fall Female sale. Whether you are looking for females to purchase or to join us for the day we would like to welcome you to our Ranch. Many of you have purchased cattle from us in the past and we would be very pleased if you would join us.

Chuck & Matt

McCumber Angus Ranch

McCumber Angus Ranch Fall Female Sale

October 29, 2009 at the ranch

Selling 70 cows, 40 bred heifers and 11 outstanding heifer calves

For a catalog or more information contact: **Chuck** (701) 246-3366 or **Matt** (701) 246-3847

E-mail: mccumber@utma.com Web site: www.mccumberangus.com

Sale managed by American Angus Hall of Fame (816) 532-0811

You saw him at the World Angus Forum

in Calgary and now he is at McCumber. We feel very fortunate that Jeff Ward allowed us to acquire an interest in this outstanding bull. Sired by Rito 707 from a dam by EXT. His flush sister is being donated by Sinclair Cattle Co. to the American Angus Association Foundation. He is chuck full of muscle, correct on his feet and legs, wide based, with exceptional Angus breed character about his head. "Ike" will be used heavily at McCumber in 2010 and we look forward to the progeny of this powerful bull.

Sinclair Entrepreneur 8R101
