*Notes from Mc Cumber*

Hope everyone is getting through this cold winter well and has been able to capitalize on the tremendous prices on cattle.

2014 represents our 50th year in the Angus business. Mc Cumber Angus Ranch was started as an FFA project by my Dad, Chuck in 1964, and along with my Grandpa, Harold Tastad, they began breeding Angus cattle focused on adding profit to the commercial cattlemen's operation. For 5 decades this has been the main objective of the breeding program. Today, Mc Cumber Angus is a family partnership between Dad and me, and we continue the same goals and objectives laid out in 1964, to breed cattle that will have a positive impact on our commercial customer's operations. Without your loyal support of our program we would not be celebrating this 50 year mile-stone.

We invite you to join us on March 26th 2014 at 3:00 p.m. CDT for our Annual Production sale. We will be selling 135 Yearling Angus Bulls and 40 Yearling Angus Heifers. We believe this offering to be as consistent in type as any set of cattle we have offered. You will find thick, deep, sound structured cattle that are designed to work in an array of environments, and have the bred in ability to create a consistent calf crop for you. We invite you to stop by the Ranch anytime to look over the cattle. The sale will be broadcast by Superior Productions on Rural TV Dish Channel 232. If you would like a catalog please let us know. We will be mailing the catalogs the 2nd week in March and will have updated photos and information on our website. Hope to see you March 26th.
