RR 1 - Box 128
Rolette, North Dakota 58366

Dear Valued Customers and Cattlemen,

It is with great pleasure and pride that we welcome you to our annual bull sale. This year represents 41 years of breeding Angus cattle. We especially want to thank you for your support of our program, and we hope we can continue to be your seed stock supplier now and into the future.

This is without a doubt the most powerful set of bulls that we have offered. There are more top quality bulls from top to bottom than we have ever had. The bulls are moderate framed, heavy muscled, deep-bodied beef bulls. They are sound and designed to work in an array of environments.

Here at Mc Cumber we are very conscious of the cows that produce these bulls and the sires we choose to use AI in the herd. **We focus on stacking generations of outstanding females. You will notice I went 4 or 5 generations back on cow production records on several of the bulls to show that these bulls are truly stacked with outstanding cows. These females are fertile, productive, problem free cows, and have the ability to pass these traits on. They not only pass on these traits, but also performance, carcass, and longevity to their offspring.** The bulls in this sale are the result of never being swayed by fads, and always sticking to **our** plan and goals. By stacking generations of outstanding females, and sons of outstanding females we are confident that these bulls will sire **PREDICATBLE PERFORMANCE, ACCEPTABLE CARCASSES AND THE TYPE OF FEMALES THAT WILL KEEP YOU IN BUSINESS.**

There are several herd sire prospects that we would like to bring to your attention. We feel there are more herd sire prospects in this offering than ever before. Lot 449 will surely get your attention. He is as complete a bull as we have produced. Phenotypically, he is tremendously well made, is wide based and puts a foot down in all four corners. He is super fronted and thick-topped with a big, expressive hind-quarter. Genetically, he stacks some of the best cows we have ever produced. I like to call him "the program". The Traveler 004 sons are sure to be sale day favorites. Lot 422, 406, and 480, have some of the best performance numbers you can find, and are backed by outstanding dams. Lot 465 has been a standout from birth, and puts together as much performance, muscle and style as any bull in the sale. Another powerful herd sire prospect is lot 419. He stems from the dam that produced Mc Cumber 6122 Equator 8113. With 8113 deceased and the semen gone, we plan to use 419 back in our program. There are also sons of New Day and VRD that have herd bull potential.

As in the past all the performance and ultrasound data has been included in the catalog. The bulls will have passed a breeding soundness exam and fertility test. We also have free delivery in North Dakota, and adjoining states, and will help with trucking to get the bulls anywhere they need to go. We guarantee the bulls to be breeders and stand behind them 100%. If you have any problems, be sure to let us know.

If we can be of any assistant, please do not hesitate to call either Dad or myself.

Chuck and Matt Tastad

								Fat	.29/94		

Lot 406- Selling 2/3 interest and full poss. - The first son of 004, and what a bell ringer he is. 406 is the heaviest actual WW calf out of a first calf heifer we have ever had. He weaned off at 826 lbs. and had a 205 day weight of 805 lbs. to ratio 114.

406 is a big, stout, beef bull with a tremendous amount of rib and capacity. He is extremely long bodied and excellent on his feet and legs. To go along with this, he gained 4.29 lbs./day and weighed off test at 1410 lbs. with a 365 day weight of 1491 lbs. to ratio 117 and go down as one of the top performing calves in our history. His WW EPD's rank him in the top 1% of the breed, and his YW EPD's rank him in the top 3%.

His dam, B Pride 2219 of Mc Cumber, is a daughter of BT New Trend 172K, the AAR New Trend son of BT Everelda Entense 57D, that we chose from the 2001 bull sale at Beartooth. B Pride 2219 is a moderate framed, perfect uddered female, who descends from the pathfinder and donor cow B Pride 287 of Mc Cumber who ratioed WW 9/107, and YW 7/102. **Performance at its best.**

Lot 407- Recommended for use on heifers. - A thick, deep bodied, moderate framed son of BT Traveler 228K. 228K is the Sitz Traveler 9929 son of BT Everelda Entense 57 D, who we also purchased along with Mark Frederickson, from the 2001 Beartooth bull sale. The 228K daughters have just weaned their first calves and did an excellent job, ratioing a combined 106, while staying in good flesh and breeding back in a timely fashion. 407 weaned off a first calf heifer at 746 lbs. to ratio 105, and had a 1307 lb. 365 day weight to ratio 103, after starting with just an 83 lb. birth weight. His dam descends from 5 consecutive pathfinder cows that trace back to Miss Wix 365 of Mc Cumber.

Lot 414 - Recommended for use on heifers. - Another long bodied, smooth made son of 228K. He comes from the same mold as 407, with a bit more length and performance. He weaned off a first calf heifer at 766 lbs. to ratio 108 and had a 365 day weight of 1340 lbs. to ratio 105. He also could be an excellent carcass prospect with Mc Cumber Mr Wix 7104 and Mc Cumber 6122 Equator 8113 sitting back in his pedigree.

Lot 417 - Selling 2/3 interest and full poss. Recommended for use on heifers. - This well made, heavy muscled son of 004 is a definite eye catcher. 417 has an EPD profile that doesn't take a back seat to anyone. BW 2.6; WW 50 (top 5% of the breed); YW 96(top 2% of the breed); UREA .52 (top 10% of the breed); and U%RP .39 (top 15% of the breed).

417 is an excellent herd bull candidate backed by one of the most powerful cow families in the Angus breed. His dam is a granddaughter of the legendary Miss Wix 365 of Mc Cumber. Miss Wix 203 of Mc Cumber is a tremendous daughter of VRD. She is deep bodied, tremendously thick made, and moderate framed. She was a very popular member of our display for the 2003 National Angus Conference and Tour as a bred heifer.

Lot 419- Selling 2/3 interest and full poss. - One of the most genuine herd sire prospects we have offered in our entire history. 419 is a cowboy's type of bull. He is deep bodied, moderate framed, big topped, and thick butted. He is excellent on his feet and legs, and is tremendously free striding and loose structured, with excellent scrotal development.

419 has excelled at every measuring point. He weaned off at 786 lbs. to ratio 110, gained 4.15 lbs./day, and weighed off test at 1350 lbs. for a 365 day weight of 1407 to ratio 111, taking his place as one of the top performing calves of the group.

He combines two of our most prominent cow families the Miss Wix and Rosetta. He traces to three of the best cows that ever resided on our ranch. Miss Wix 365 of Mc Cumber, Miss Wix 235 of Mc Cumber; who is the dam of Mc Cumber Foundation 701, Miss Wix 702, and Miss Wix 705. He also traces to Rosetta 405 of Mc Cumber, the dam of Mc Cumber Stretch 604, and the great grand dam of Mc Cumber 6122 Equator 8113.

His dam, Rosetta 162 of Mc Cumber is one of our top Mc Cumber Foundation 701 daughters. She is deep bodied, easy fleshing and has an absolutely picture perfect udder. She is also tremendously fertile, settling AI every year. Rosetta 162 of Mc Cumber is a problem free, low maintenance cow, the kind that keep you in business.

419's sire, Mc Cumber Equator 6122, who is leas to Accelerated Genetics, has recently been tested a 5 star tenderness bull. 419 descends from the same cow that produced Mc Cumber 6122 Equator 8113. With 8113 deceased and his semen supply exhausted, we plan on using 419 ourselves on cows as well as heifers - to intensify the maternal heritage in our herd from which he descends.

He offers performance, maternal function, and carcass potential, in a balanced and complete package.

Mc Cumber Equator 6122, sire of lot 419

Rosetta 421 of Mc Cumber, maternal great grand dam of lot 419

Rosetta 3118 of Mc Cumber, maternal sister to 419's dam

Lot 420 - A well made, heavy muscled son of Mc Cumber 8113 Equator 1190. 1190 was the top selling bull in our 2002 bull sale to Spencer Griffin in MT. We chose 1190 as the 8113 son to use because of his tremendous dam.

Semen Interest

You will notice we are retaining an Interest in quite a few of the bulls. These are bulls we may want to collect semen from in the future for use within our herd. If we were able to sell semen from your bull, we would share, with you, any revenue generated from the sale of semen. The bulls would be collected when it was convenient for you. **The buyer has full possession and salvage value of the bull.** Many of these bulls will undoubtedly sell in the price range of the commercial man.

Lot 422- Selling 2/3 interest and full poss. - This big, stout scamp has all the makings of a tremendous herd sire prospect. He weaned off at 752 lbs. for a ratio of 107, gained 4.54 lbs./day, which was #2 in the group, and weighed off test at 1370 lbs. with a 365 day weight of 1478 lbs. to ratio 116, as his dams first calf.

422 is extremely well made, he has a big square hip, and tracks as wide as a truck. 422 is also unique in the fact that he is probably a half frame score larger than the typical 004. He also scanned superbly with an IMF of 3.71 to ratio 118, and a 13.7 in REA. His EPD profile is second to none in this offering at a +53 WW EPD, and a +102 YW EPD, which is the #1 all time high YW EPD we have ever had. To go along with these outstanding performance EPD's, he also is +.13 for IMF, and +.28 for REA.

His dam, Erianna 2206 of Mc Cumber, is an outstanding daughter of Mc Cumber 6122 Equator 8113. She is long bodied, easy fleshing and has an excellent udder. The Erianna cow family has been very productive for us, and has had a large impact on the Claybrook program in TN.

Dam - WW 1/107; YW 1/116

G Dam - WW 3/107; YW 3/109; IMF 3/105; REA 3/101

G G Dam - WW 4/101; YW 3/100; IMF 1/116; REA 1/107

422 will be a favorite on sale day because of his style, thickness, and performance. If you're looking for a 004, it would be worth the trip to see this unique herd sire prospect.

Lot 423- Recommended for use on heifers. The Pine Creek Right Times are a tremendous sire group, and this bull in no exception. 423 is a deep bodied, thick made bull, who has excellent muscle expression in his hind quarter. He weaned off at 750 lbs. to ratio 106, and had a 365 day weight of 1315 to ratio 103 as his dam's first calf. His dam is a wonderful daughter of BT New Trend 172K, and is a member of the very productive Lassie family.

Lot 425- Recommended for use on heifers. - This excellent calving ease prospect is nice fronted, and smooth shouldered, yet has excellent thickness and capacity. His dam is a daughter of Pine Creek Right Time 1147, and is a moderate framed, easy fleshing, beautiful uddered female.

Marketing

If you have calves sired by our bulls, we would like to help you market them. We would also like to know if you have bred heifers, and/or heifer calves for sale in the fall. **We get calls looking for good commercial females.** I would also suggest checking out the Angus Source program. This is a very simple way to set your Black Angus sired calves apart from the rest, when it comes time to sell them.

Sight Unseen Purchase Program

If you cannot attend the sale and would like to purchase bulls, please give us a call, and we'll be glad to help you with your order. Describe the type of bull, minimum and maximum parameters, and price range. We want to assure you that your bid will be handled with the utmost professionalism, and your money will be handled like it is our own. **We guarantee 100% satisfaction on all orders.** If you get the bull and don't like him, we will take him back.

										Fat .24/73									

Lot 426- Selling 2/3 interest and full poss. - This long bodied, big topped herd sire prospect puts a lot of things together. His EPD's put him in a class alone. WW +51 (top 4%); YW +95 (top 3%); IMF +.19 (top 25%); REA +.40 (top 15%); %RP +.28 (top 25%).

The raw scan data on 426 is also excellent with an IMF score of 4.08/117, and an actual REA 14.3/99. 426 stems from a tremendous line of cows. His dam is a big, stout daughter of Mc Cumber Powertrain 1025, and has one of the top EPD profiles of any cow in our herd. BW 5.3; WW 42 (top 10%); MM 26; YW 82 (top 5%); IMF .31 (top 2%); REA .53 (top 1%); and %RP .32 (top 10%); \$Beef 43.25. Her individual scan data was also tops in her contemporary group IMF 8.58/162, and REA 12.6/116. Along with this, the cow family really gets it done where it counts.

Dam - WW 2/104; YW 2/105
G Dam - WW 4/111; YW 3/111
GG Dam - WW 8/104; YW 8/104

His grand dam, Lassie 688 of Mc Cumber, was the high selling cow in our 2003 cow sale at \$15,000 to a group of breeders in NE. His great grand dam was a feature of our 2000 cow sale selling to Claybrook Farms in TN. Not only is 426 one of the top carcass prospects by 004 to sell this year. He has the cow power behind him to make a lasting impact on any breeder's cow herd.

Lassie 688 of Mc Cumber, maternal grand dam to lot 426

Lot 431- Recommended for use on heifers. - With a weaning weight of 758 lbs. to ratio 105, you won't have to sacrifice early growth for calving ease. 431 is very well made. He is smooth fronted, long bodied, and has excellent thickness.

His dam comes from a line of 5 consecutive generations of pathfinders, and 6 generations of WW ratios of at least 105, including his dam. Her first calf sold in last year's sale to Wayne Artz, as one of last year's top calving ease bulls.

Calving ease, longevity, productivity, and fertility all wrapped up in 431.

Lot 432 - Recommended for use on heifers. - 432 was a twin with a heifer. Both were raised by their mother, and what a job she did. He weaned at nearly 700 lbs. and his sister weaned at 670 lbs., some how his mother managed to settle AI this year and calved in mid January, after raising nearly 1400 lbs. of calves. 432 is one of the top calving ease bulls to sell in this sale. He is as long as a freight train and put together flawlessly.

Lot 441- Selling 2/3 interest and full poss. - An excellent son of Boyd New Day. I think you'll really be impressed with this sire group. They are long bodied, well made, and heavy muscled. 441 is one of the best.

He is a soggy, long bodied, naturally thick bull that puts the numbers together as well as any. He weaned off at 728 lbs. to ratio 104, gained 4.46, which was the third highest ADG in the pen, and pushed the scale down at 1335 lbs. off test for a 365 day weight of 1413 lbs. ratioing 112. He combines a moderate 3.1 BW EPD with explosive growth, WW EPD +46 (top 15%), and YW EPD +98, which is the 2nd highest YW EPD in our history and ranks him in the top 2% of the breed.

To go along with this explosive performance 441's mother is a deep, long bodied, perfect uddered daughter of Papa Equator 2928, with outstanding ratios. His grand dam is earning her keep in the Badlands! This **performance powerhouse** is definitely a bull you should check out.

3.5	50	26	90		-.23	.17	.016	-.36	1/102	1/111	1/111

Lot 442- Selling 2/3 interest and full poss. - Complete, best describes this herd bull prospect in terms of **Performance, Pedigree, and Phenotype**. 442 is stout, big butted, long bodied, and stands on excellent feet and legs. He weaned off with a 205 day weight of 785 lbs. with a ratio of 111, gained 3.94 lbs./day, weighed off test at 1320 lbs. for a 365 day weight of 1415 lbs. with a ratio of 111 as his dam's first calf.

His dam typifies a profitable beef cow. She is moderate framed, long bodied, perfect uddered, and settled AI in the first cycle after raising a whopper of a bull calf. 442 stacks generations of out standing females. His grand dam was a feature of our 2003 cow sale selling for \$6,000 and his Great Grand Dam sold in our 1997 cow sale as a feature to Yearous Cattle Co. in CO, where she continued to be a top donor for them. The productivity of these cows is outstanding as well:

- Dam - WW 1/111; YW 1/111
- G Dam - WW 4/111; YW 4/106
- GG Dam - WW 10/106; YW 9/106
- GGG Dam - WW 10/103; YW 10/102

We plan on using 442 AI ourselves this year because of his **Performance, Pedigree, and Phenotype!**

Nutrition

The bulls were fed the same basic ration as in the past. We had them on a ration that reached 49mcal, and was 14% protein. The bulls performed superbly, and had very modest back fat, thus insuring their soundness and longevity. Once again the calves received a highly medicated creep, while the cows were dry lotted, prior to going to pasture. This has helped tremendously with the control of pneumonia. **Once the cattle are on grass, the cows and calves do not receive any supplemental feed, except for mineral and salt.**

Lot 449- Selling 1/2 interest and full poss. - Recommended for use on heifers. - 449 combines some of the best cows that we have ever bred. He is sired by Mc Cumber 7111 Total Value, the 2nd high selling bull in our 2003 bull sale to Marcy Cattle Co. in NE and Redland Angus in WY.

Total Value's dam is Miss Wix 7111 of Mc Cumber, the cow who has become the replacement to her dam, the legendary Miss Wix 365 of Mc Cumber. The number of maternal siblings to Miss Wix 7111 that have had an impact on the breed are to numerous to list. His dam, Miss Wix 7007 of Mc Cumber, is one of the best Mc Cumber 124 Traveler 212 daughters we have bred. She is moderate, long bodied, easy fleshing, and has an excellent udder. She entered our donor pen last spring and on one flush produced 12 transferable eggs, then settled AI on her first heat after being flushed. Miss Wix 7007 is a Granddaughter of Miss Wix 235 of Mc Cumber, the dam of Mc Cumber Foundation 701, Miss Wix 702, and Miss Wix 705. Miss Wix 7007 has already produced two past graduates of our bull sale, selling for an average of \$3300 to Ron Slabaugh, and J. Hould in MT.

The cows behind 449 are outstanding. Along with this, he is a darn good bull. **449 is balanced, moderate framed, long bodied, super sound, heavy muscled and moves like a cat.** This is one bull that you'll definitely want to look up.

Miss Wix 235 of Mc Cumber,
maternal great grand dam to lot 449

Lot 453- Selling 2/3 interest and full poss. Recommended for use on heifers. - 453 is a bull that combines calving ease, performance, and muscle as well as any bull in the sale. 453 will catch your eye. He is extremely long bodied, very nice fronted, and excellent on his feet and legs. He also combines a lot of muscle, and plenty of rib into a very stylish, eye catching package.

His dam is a tremendous female that sold through our 2003 cow sale to Best Angus in ND. She has entered their embryo program and will continue to have a large influence in our herd as well. Gale 5127 of Mc Cumber comes from a very prominent, well proven cow family. She is a maternal sister to the calving ease bull Mc Cumber 953 Rito 420, Mc Cumber Next Step 9012, and Gale 041 of Mc Cumber who sold as a feature of our 1997 cow sale to Dalton's on the Sycamore in VA. Gale 5127 of Mc Cumber is also the Grand Dam to the outstanding VRD bull 490 selling in this sale, as well as the Great Grand Dam to lot 421. This line of Gale cows has been very productive and excels at injecting IMF into their progeny, as well as lowering the birth weight.

Dam - BW 8/97; WW 8/102; YW 8/103
G Dam - BW 9/94; WW 9/103; YW 9/100

Not only is 453 a calving ease bull, but he is also the 4th high gaining bull in the pen at 4.44 lbs./day. He has some of the most complete EPD's in the sale. Not only will he sire light birth weight calves, but calves that will perform and grow. **We call him a herd bull!**

Lot 455 - Selling 2/3 interest and full poss. - Recommended for use on heifers. - Moderate framed, heavy muscled, and extremely sound on his feet and legs best describes this 4lb.. gainer by New Day. His dam is a moderate framed, easy fleshing, perfect uddered daughter of Sitz Rainmaker. Not only does she lower the birth weight indicated by her BW ratio of 3/98, but she also increases the IMF. She has had 3 calves scanned with an IMF ratio of 126. 455 put together some of the best ultrasound numbers in the pen with an IMF of 4.77/140, and a 15.8 REA to ratio 112. His REA EPD of +.50 would rank him in the top 10% of the breed for non - parent sires. **CARCASS, MATERNAL, AND PERFORMANCE!!!**

5.1	43	24	83	.89	-.08	.16	.042	-.63	3/109	3/110	3/106

Lot 460- Selling 2/3 interest and full poss. - He is thick butted, big topped, and really pushes the scale down. 460 had an actual WW of 800 lbs. to ratio 111. He gained over 4 lbs./day, and weighed off test at 1370 lbs. with a 365 day weight of 1418 lbs. to ratio 112. He takes his place as one of the top performing calves in the sale.

His dam is a super uddered, good milking, daughter of Mc Cumber Foundation 701, and already has a real standout baby bull calf by Leachman Right Time. The 1147 x Foundation mating really worked extremely well, and there are several more of these matings that sell in the sale. His dam reached pathfinder status in her first year of eligibility with a WW ratio 3/110, and YW ratio 3/106. She has settled AI for 4 consecutive years. Don't let the extra birth weight worry you, he'll be fine on cows.

Fertility, early growth, and performance wrapped up in one, big, stout, beef bull!

Lot 462- Another heavy muscled, deep bodied, stout made bull by Pine Creek Right Time 1147. He weaned off his dam with a 205 day weight of 716 lbs. for a ratio of 102 and had nearly a 1300 lb. 365 day weight to ratio 102. These Pine Creeks as well as many others in this sale offering are the type of bulls that can cover a lot of cows in a large pasture without falling apart.

Pine Creek Right Time 1147, sire of lots 460 and 462

Lot 465 stands next to his dam in the pasture.

Lot 465 - Selling 1/2 interest and full poss. - This stylish, big topped, thick butted, stout made calf has all the makings of a tremendous herd sire prospect. He would be without a doubt one of the top performing calves in the pen if he hadn't gotten slightly injured shortly after weaned. He is fully guaranteed to be sound and has recovered quite nicely from the injury, this is indicated by the fact that the last 60 days on test he gained over 4 lbs./day, and was never pulled out of the pen. So he didn't have any extra feed and competed right along side the sixty other bulls in the pen.

465 was a favorite of the visitors that saw him this summer. He weaned off his dam at a whopping 808 lbs. for a 205 day weight of 817 lbs. to ratio 116, as his dam's first calf. He did this without pasture creep, and no supplementation for the cows. To go along with his tremendous performance, 465 had an adjusted IMF score of 4.66 to ratio 153 (the highest of the group), and had a 14.8 REA to ratio 107.

His dam is moderate framed, extremely well made, easy fleshing, and good uddered. She is already nursing a standout this year after settling AI on the first service last spring while raising 465. Miss Wix 2027 of Mc

**Pine Creek Right Time 1147,
sire of lot 465**

Cumber stems from a long line of Pathfinders, and top producers. **There are 5 consecutive generations of pathfinder cows behind her, and they include the legendary Miss Wix 365 of Mc Cumber.** 2027's dam Miss Wix 352 of Mc Cumber sold to Harrison O'Connor of Saddle Butte Ranch in MT as a \$9750 feature of our 2000 female sale, and has progeny sales of \$23,000. Her Grand Dam topped our 1997 cow sale at \$22,000 to Ray Creek Ranch in MT and has progeny sales for us of \$25,000. Her Great Grand Dam is none other than Miss Wix 365 of Mc Cumber, with progeny receipts pushing the \$500,000 mark. The production of these cows is nearly incomparable.

Lot 480- Selling 2/3 interest and full poss. - Recommended for use on heifers. - Don't miss this big topped, wide tracking, well made son of 004. We feel he may be the most complete son of 004 in the sale.

He had a 205 day weight of 758 lbs. to ratio 108; gained 3.75 lbs./day, and had a 365 day weight of 1358 lbs. to ratio 107 as his dam's first calf. His weaning EPD of +53 ranks him in the top 2% of the breed. His yearling EPD of +93 ranks him in the top 4% of the breed and his REA EPD of +.61 ranks in the top 3% of the breed. To go along with his outstanding performance, he scanned a 15.6 in. REA to ratio 113, and comes from a tremendous line of cows.

His dam is a terrific daughter of Mc Cumber Powertrain 1025, out of Miss Wix 9026 of Mc Cumber who is a full sister to Mc Cumber Foundation 701, Miss Wix 705 of Mc Cumber and Miss Wix 702 of Mc Cumber. She is deep bodied, super sound and has a perfect udder. The cow production behind him is impeccable:

- Dam - WW 1/108; YW 1/107**
- G Dam - WW 4/101; YW 3/98**
- G G Dam - WW 10/104; YW 9/104**
- G G G Dam - WW 10/119; YW 9/111**

480 really puts it all together as well as any bull in the sale. He has COW POWER, PERFORMANCE, and BALANCE!!!

Lot 488 - Selling 2/3 interest and full poss. - This jig, stout, scale crusher is definitely herd bull material. He had an actual WW of 835 lbs. with a 205 day weight of 771 to ratio 115. He gained 4.33 which was the 5th highest in the pen to weigh off test at 1425 lbs., with a 365 day weight of 1464 lbs. to ratio 116. He places among the top 5 performing calves in the group.

His dam is a high volume, sound footed, perfect uddered daughter of Sitz Traveler 9929. 488 combines two of the most popular cow families in the breed, the Everelda Entense and the Forever Ladies.

Not only did 488 have some of the best performance in the pen, he also scanned like a champ. IMF 4.46/131; REA 14.5/103 and BF .32/ 97. His EPD's are about as balanced and complete as you can make them, not only for production, but carcass ultrasound too.

EPD BALANCE, REAL WORLD PERFORMANCE, and OUTSTANDING PHENOTYPE!!!

Lot 490 - Selling 2/3 interest and full poss. - Well VRD did it again! 490 is a long bodied, wide based bull that is heavy muscled and has a ton of capacity. He is the high actual WW bull at 862 lbs. 490 had a 205 day weight of 797 lbs. to ratio 118, gained nearly 4 lbs./day and weighed off test at 1400 lbs., with a 365 day weight of 1431 lbs. to ratio 113. His ultrasound did not disappoint. He scanned an IMF 3.60/106, had an actual REA of 15.9 and adjusted to 15.7/111. Along with this, he has only a 3.2 BW EPD, which would rank him in the lower percentiles as far as VRD's go.

In our opinion, his dam is a model Angus cow. She is moderate framed, easy fleshing, excellent on her feet and legs, and has an absolutely perfect udder. She has already produced two graduates of our bull sale one selling to Dean Moncur SD, in 2003, and one selling last year to Larry Kraft of Rugby. She is also a member of the light birth weight, very productive Gale line of cows.

Dam - BW 5/97; WW 5/102; YW 4/104; IMF 3/110
(grand dam to lot 421)

G Dam - BW 8/97; WW 8/102; YW 8/102; IMF 6/108
(dam of lot 453)

GG Dam - BW 9/94; WW 9/103; YW 9/100; IMF 6/100
(pathfinder, and dam of 420)

GGG Dam - BW 10/105; WW 10/104; YW 10/103 (pathfinder)

The longevity, fertility, udder qualities, and production of this line of cows, combined with the growth and power of VRD, makes 490 a top of the line

Lot 495 - Recommended for use on heifers. - This thick made, moderate framed, calving ease bull is really sound on his feet and legs. His dam is a member of the Lassie cow family that has done such a good job for us. He should sire moderate framed, easy fleshing replacements - the kind of cows that are problem free and designed to work in any environment.

Lot 497 - Selling 2/3 interest and full poss. - One of the best sons of Mc Cumber 8113 Equator 1190 in the sale. He weaned off at 766 lbs., with a 205 day weight of 712 lbs. to ratio 106. He gained 3.89 lbs./day to weigh off test at nearly 1300 lbs., with a 365 day weight of 1334 to ratio 106. 497 is deep bodied, thick butted, and wide tracking.

His dam is one of the top producing Foundation 701 daughters we have. Her first calf sold to Rick Slabaugh as a calving ease bull. Her 2nd calf sold through our 2003 cow sale to Beartooth Ranch in MT for \$4500. Her bull calf last year sold as a feature to Donnie Clark in GA, for \$7000. She has never missed and is already nursing an outstanding bull calf by VRD.

Lassie 913's dam is the Equator daughter who sold as a very popular feature of our 2003 female sale. He comes from a tremendous line of cows and is bull that you should check out.

Lot 4003- Selling 2/3 interest and full poss. - An outstanding Leachman Right Time son from a tremendous cow family. 4003 is long, thick and put together as well as any. With a modest birth weight of 85 lbs., he could possibly work on heifers. This is further enforced by the fact that his dam ratios 4/99 for BW. 4003 had excellent ultrasound data as well. He ratioed 118 for IMF and had an adjusted REA of 14.5 to ratio 107.

For outstanding carcass and the kind of females that will keep you in business, be sure to look up this herd bull prospect.

Lot 4007- Selling 2/3 interest and full poss. - This one and only son of Mc Cumber 6122 Equator 8113 is full of red meat. He is wide based, deep bodied and has a big, expressive hind quarter. Considering all the muscle this bull has, he is still very sound and moves free and easy.

He scanned an actual REA of 15.9, nearly a month before his 1st birthday, which adjusted to a 16.3/120. His REA EPD of +.72, and %RP EPD of +.74 rank him in the top 1.5% of non-parent bulls for these traits.

His dam was an outstanding donor for us and sold to Dr. Curtis Long in MO through our 2003 cow sale. She is a tremendously powerful path-finder daughter of Mc Cumber 124 Traveler 212. Blackcap 631 of Mc Cumber also has excellent ultrasound EPD's with a REA EPD of +.39 to rank in the top 4% of current dams and a %RP EPD of +.68 to rank in the top 1%.

4007 offers red meat yield and outstanding maternal genetics!

Lot 4105- This big, stout rascal will definitely be noticed on sale day. He weaned off at 844 lbs. with a 205 day weight of 785 lbs. to ratio 117 and places as the #2 weaning bull of his contemporary group. He weighed off test at 1355 lbs. with a 365 day weight of 1387 lbs. to ratio 110. He also scanned an excellent REA at 15 sq. inches to ratio 106, which resulted in a REA EPD of +.50 to rank in the top 10% of non-parent bulls.

His dam is easy fleshing and a member of the Rosetta cow family. She has also been very productive with a WW ratio of 4/109 and YW ratio 4/105. His pathfinder grand dam was one of our top 212 daughters that sold in our 2003 female sale with outstanding ratios as well: WW 6/106 and YW 5/105.

Lot 4106- The high gaining bull on test at 4.6 lbs./day. This long bodied, big butted son of VRD will surely have a lot of friends. He weaned off at 700 lbs., but gained over 600 lbs. in 136 days on test to weigh off at 1330 lbs. with a 365 day weight of 1410 lbs. to ratio 112.
For those fast gaining steers that are profitable to feed, check out 4106.

MC Cumber 7078 VRD 4106

Mc Cumber 7078 VRD 3116, maternal brother to lots 4110 and 4111 who sold last year for \$11,000.00

Lot **4110**

Lot 4112- A long bodied, well made son of Mc Cumber Equator 6122, with top of the line performance. 4112 has weaning and yearling ratios of WW 108, and YW of 109, with an ADG of 4.09 lbs./day. This would put him in the very top of the contemporary group for performance.

His dam is another excellent daughter of Mc Cumber Foundation 701 that is deep bodied, well made, has an excellent udder, and is a low maintenance, problem free type of cow. 4112's grand dam was an excellent donor cow for us and sold through our 2000 cow sale to John and Violet Runkel of PA. B Pride 287 of Mc Cumber earned pathfinder status with ratios of 9/106 for weaning and 7/102 for yearling.

Lot 4115- Selling 2/3 interest and full poss. - This super stylish, deep bodied, heavy muscled son of Pine Creek Right Time 1147 really puts it all together. 4115 is a maternal brother to last year's high selling bull, Mc Cumber 7078 VRD 3108.

His dam is a tremendous daughter of Mc Cumber Foundation 701. Lassie 974 of Mc Cumber has an impeccable udder, is easy fleshing, deep bodied, and about as picture perfect as you can make them. She has consistently settled AI on the first service and seems to have a knack for producing herd sires. Her dam, Lassie 272 of Mc Cumber sold as a feature of our 2000 cow sale to Claybrook Farms, and Bob Harris in TN. The productivity and longevity of this cow family has been excellent:

Dam - WW 4/104; YW 3/109; REA 2/116
G Dam - WW 8/104; YW 8/104
GG Dam - WW 10/103; YW 10/102

We think 4115 absolutely has herd bull potential!!!

											Fat	.32/97	

Lot 4123- Recommended for use on heifers. - This moderate-framed, heavy muscled, deep bodied son of Boyd New Day 8005 really puts a lot of things together. He had only an 82 lb. BW, which resulted in the second lowest BW EPD in the sale at -.01, he gained over 4 lbs./day on test and had tremendous ultrasound data as well. He scanned IMF 3.62 for a ratio of 106, had a REA of 14.9 to ratio 106 and has a REA EPD of +.44 to rank in the top 15% of non-parent sires in the breed.

For calving ease, feedlot performance, and carcass, 4123 stands alone.

Lot 4122- Selling 2/3 interest and full poss. - This stout made, beef bull is powerful from every angle. He gained over 4 lbs./day to post a 365 day weight of 1336 lbs.

His Mc Cumber Foundation 701 dam has been proclaimed by some to be their favorite cow in our herd because she is the epitome of a tremendous beef cow. Gale 9120 of Mc Cumber is extremely easy fleshing, has a ton of volume and capacity, is moderate framed and has a flawless udder. Her dam is a moderate framed, excellent uddered daughter of Mc Cumber 054 Rito 326. 326 left us with a tremendous set of daughters. 4122's dam is nursing another tremendous herd bull prospect this spring by VRD.

4122 has the genetics and phenotype to be the type of bull to cover big country with out falling apart, along with this, he should sire tremendous low maintenance females, and male counterparts that are thick, and stout with the ability to convert feed to gain EFFICIENTLY.

Lot 4125- Selling 2/3 interest and full poss. - This super stout, long bodied, thick made calf will get your attention. He weaned off at 774 lbs. to ratio 109, gained nearly 4 lbs./day, weighed off test at 1315 lbs., with a 365 day weight of 1368 lbs. to ratio 109. Along with all his performance, he also scanned an excellent REA of 15 to ratio 106.

His dam is a moderate framed, power house that comes from a tremendous line of Miss Wix cows that have gotten the job done for generations. **Tracing his pedigree back, his dam has 4 consecutive generations of pathfinder cows.**

His grand dam, Miss Wix 6101 of Mc Cumber, sold through our 2003 cow sale to Marv and Judy Bell of Majic Valley Angus in WA. She currently has a Boyd New Day son on test at the Treasure Bull Test in Montana that is doing very well. This line of cows has been very productive.

Dam - WW 5/103; YW 3/105

G Dam - WW 6/113; YW 5/110 (pathfinder)

Lot 4136- An excellent son of BT New Trend 172K. 4136 is long, well made and excellent and his feet and legs. His dam is a daughter of old QAS Traveler 23-4 himself, and quite good. Miss Wix 1001 of Mc Cumber is moderate, easy fleshing and good uddered. She descends from the Miss Wix family and is a maternal sister to the dam of the herd bull selling as lot 465. She stems from 5 consecutive generations of pathfinder cows that include Miss Wix 365 of Mc Cumber. 4136 posted some of the best ultrasound data in the group with an IMF of 3.58/105, REA 15.6/111, and BF .22/67.

Maternal power and carcass excellence wrapped up in this bull!!

Miss Wix 352 of Mc Cumber, maternal grand dam of lot 4136

Miss Wix 5007 of Mc Cumber, maternal grand dam of lot 4137

Lot 4141- Selling 2/3 interest and full poss. Recommended for use on heifers. - An excellent calving-ease prospect by Mc Cumber 7111 Total Value. 4141 is a maternal brother to Mc Cumber 8113 Equator 1190, the sire to some of the calves selling in this sale, and the high selling bull of our 2002 bull sale to Spencer Griffin in Montana.

4141 is tremendously well made, and has a lot of shape to his top and rear quarter. He is super sound and moves out free and easy. Along with this, he has some of the most balanced ultrasound EPD's in the sale. He scanned IMF 4.01/118, and had a REA of 14.8/105, and has a 1.20 REA/CWT.

His dam is a wonderful daughter of Mc Cumber 054 Rito 326. She is moderate framed, long bodied, and has an excellent udder. She posts ultrasound IMF and REA ratios of 4/118 and 4/100 respectively.

Lot 4153- The first son to sell by our Herd Sire Mc Cumber New Trend 1206. 1206 is sired by AAR New Trend and his dam is the powerful donor Miss Wix 705 of Mc Cumber, who is the flush sister to Mc Cumber Foundation 701, and Miss Wix 702. The 1206 calves are extremely heavy muscled and the daughters appear to come from the same mold as his dam. They are deep, thick, and look to be extremely easy fleshing.

4153 is typical of the 1206 sons. He is long bodied, deep, and has a tremendous amount of muscle, not only visually, but by ultrasound as well. This end of Feb. calf scanned an actual REA of 16.4, which adjusted to 16.7 for a ratio of 118, to stake his claim as the #2 REA bull in the sale.

He is a mid-March bull that had a 205 day weight of 703 to ratio 104, gained nearly 4 lbs./day, and had a 365 day weight of 1337 lbs. to ratio 106.

His dam is a moderate framed, easy fleshing, super uddered daughter of Mc Cumber 953 Rito 420 and consistently produces a good calf every year, indicated by: BW 4/99; WW 4/103; YW 4/101; IMF 4/100; REA 4/102

Her dam has also been a tremendous producer with a BW ratio 6/96, WW 6/105, YW 5/105, and two bulls selling for an average of \$5600, one to Clay Creek Ranch in WY, and another selling last year to Dick, Grant, and Ross Nielsen in NE.

For proven and predictable genetics, make sure you find 4177.

Lot 4185- - A larger framed son of Mc Cumber New Trend 1206 that is really packing a ton of muscle. This end of March calf scanned a REA of 16.0 to ratio 113, with only .24 BF. His REA EPD of +.35 ranks him in the top 20% of non-parent sires and his %RP of +.59 ranks him in the top 4% of non-parent sires. 4185 has a REA/Cwt of 1.35.

For true lean red meat yield and daughters that will get the job done, don't over look this good young calf.

4.2	20	24	42		-.01	-.10	.016	.09	2/107	2/101	1/105

Lot 4197-This wide based, deep bodied, heavy muscled bull has the look of a real "stock bull". He is only a March 30th calf, but is masculine with excellent scrotal development.

His dam is an excellent daughter of Mc Cumber 71 Traveler 7114. She is tremendously easy fleshing, moderate framed, super sound and has a perfect udder. 417 has an EPD profile that doesn't take a back seat to anyone. BW 2.6; WW 50 (top 5% of the breed); YW 96(top 2% of the breed); UREA .52 (top 10% of the breed); and U%RP .39 (top 15% of the breed). 417 is an excellent herd bull candidate backed by one of the most powerful cow families in the Angus breed. **This calf would fit the bill, if you want moderate framed, heavy muscled cattle.**

Lot 4209- This mid April calf has the look of a herd bull. He catches your eye with his super structure and big, expressive butt end. His dam is a powerful daughter of Sitz Rainmaker 7596 and is a maternal sister to the dam of Lot 422. She has already produced a \$2600 dollar bred heifer that sold through our 2003 cow sale.

Don't overlook these good young bulls. If we didn't think they were GOOD BULLS we would have cut them last fall.

Mc Cumber Foundation 701,
 paternal grand sire of lots 4209 and 4212

Angus Source Rebate Available from Mc Cumber Angus Ranch!

As a new program for our customers, Mc Cumber Angus Ranch is pleased to offer 30 free AngusSource tags/enrollments for each bull purchased from us in the past two years. These tags should be used for calves sired by Mc Cumber Angus Ranch bulls, and tags must be purchased and applied in 2004. The tags cost \$1.00 each, and Mc Cumber Angus Ranch will rebate this on each qualifying tag.

To participate in the AngusSource program, commercial customers must first complete the "Beef Improvement Records" enrollment form, available in printed form from the American Angus Association (AAA), or online at www.angussource.com. Tags may then be ordered in one of two ways...on www.angussource.com or by calling the AAA. Allow at least two weeks for tag orders to be processed and shipped to you.

After tags have been ordered, FAX or mail a copy of the AAA receipt/invoice (you will receive this from the AAA a few days after your order is processed) to Mc Cumber Angus Ranch. If you are using bulls not purchased from Mc Cumber Angus Ranch, please indicate the total number of tags ordered for Mc Cumber Angus Ranch -sired calves only, and we will send you a check for these tags.

For more information on the AngusSource program, contact the AAA Commercial Programs department at 816-383-5100 or go to www.angussource.com. Thank you for your continued use of Mc Cumber Angus Ranch genetics!

AngusSource enables producers to convey the valuable source, genetic and management information about their Angus-influenced commercial feeder calves and replacement heifers to prospective buyers.

Step 1 Enroll in **AngusSource** via www.angussource.com or with a printed enrollment form (available by calling American Angus Association office). **THIS INFORMATION MUST BE SUBMITTED PRIOR TO FIRST TAG ORDER.**

Step 2 Enroll cattle and order tags via www.angussource.com or by calling AAA office. **Allow 2 weeks for printing and delivery. Enrollment fee: \$1 per tag**

Step 3 Tag calves. Tags should only be used for calves whose sire or maternal grandsire is a registered Angus bull. Calves should be at least 50% Angus and tagged prior to shipping from farm or ranch of origin.

Step 4 Enter marketing information about the health, management and sale date/location.

Step 5 Market cattle through an auction, video or direct by using the printed **AngusSource** Marketing Document to convey the valuable information to potential buyers.

For more information, contact the AAA Commercial Programs Department at 816-383-5100 or angussource@angus.org.
